MALTINE
The concentrated extract of Malted Barley, Wheat and Oats, rich in all the nutritious principles, is free from Alcohol and Carbonic Acid, and possesses from five to ten times the virtues of any alcoholic or fermented Extract of Malt, as it contains much larger proportions of Nitrogen, Carbohydrates and Phosphates. It is therefore most particularly useful to mothers while nursing, in cases of insufficie at milk, to delicate and extenunted children, to persons of habitually emaciated body, to Invalids and Convalescents. in the treatment of Phtisis and Consumptive maladies, it has in many Hospitals, and in the practice of renowned Physicians, taken the place of Cod Liver Oil.
Maltine, in itself highly nourishing, is also a natural solvent of all farinaceous food and therefore a great axiliary to sound and healthy digestion; it is agreeable to the palate, so that even little children take it with relish.

WHEAT.

There has been so much speculation about the yield of the wheat crop this season, and so many erroneous estimates about the crop of the previous year, that reliable wheat statistics will be all the more appreciable. The facts and figures we give hereunder we obtained from a German gentleman who is intimately connected with the Santa Fe colonies and who has just arrived from there.

The wheat crop of the cluster of Santa Fe colonies around Esperanza and San Carlos amounts to 250,000 fanegas of 15 arrobes each against 80,000 fanegas last year, but our informant thinks that the millers will try to buy as much as they can of the crop and that the chief export this season will be flour. All the colonists have done well, and but for the locusts and the rain the crop might have been larger, as the area sown under wheat was larger than any previous year. Some of the colonists have done very handsomely this year, a Mr Rentimann who, for the last six years has had bad crops, clears this year: from his farm of 60 squares, five thousand Bolivian dollars, and there are many other farmers who have done as well.

The wheat crop of these colonies in the season 1878-79, which was the great wheat year in the Plate amounted to 250,000 fanegas of 15 arrobes, which is the same as this year's yield.

Since the visit of President Avellaneda to the colonies in the year 1869, their population has much increased and, in all the colonies new farms have been taken from the agents by friends and relations of the colonists arriving out from Europe. Nearly all these new hands have this year their first crop, and are happy and prosperous and contented. The yield of wheat on the Frank, Greutley, Agustin, Santa Maria, San Carlos and other colonies has been splendid, and a manager of some of these colonies states that on the different farms he got—

130 fan. 15 ar.	— per	10 fan.	seed
120	do	do	do
80	do	do	do
100	do	do	do

Nearly all the colonists use machine labour, and it pays them well, as it gets the wheat in quickly and clean. A German subscriber sold all his wheat at 13 Bol. per fan, whilst if he had not the machines he could not have had the wheat ready in time, and now he would have to sell it at 8 or 9 Bol.

The actual cost of production to the colonist is 5.50 Bol. per fan. of 15 ar. It costs 130 Bol. to plough twice and harrow once 20 squares of land, (sheepfarmers on new camps might take note of this) it costs 10 Bol. to sow the seed, and the seed costs 15 Bol. fan., and 10 fan. are required for the 20 squares: thus the seed stands the farmer 150 Bol., for rent 50 Bol. and capital another 50 Bol. are the estimates; then it costs 60 Bol. to cut and stack and 100 Bol. to thresh which gives a total of 550 Bol. for the 20 squares yielding say 100 fan. wheat.

Our informant considers that every well-to-do colonist family requires a farm of at least 160 squares, which as a rule can be bought on long time for 2,000 Bolivians, say 40,000 m|c. This is about the highest price obtainable and gives for the square league an average price of 400,000 m|c payable on very long credits, and it is useful for parties in Buenos Ayres to know that any higher scale of charges the colonists cannot pay. It has been tried over and over again to screw out of the poor people a higher scale, but the result has always proved unfavourable. If the colonists do not thrive and prosper, then nothing thrives, and the whole concern goes down, like many of the colonies started near the railway.

The best machine at these colonies is considered to be the Californian Header: it cuts and stacks in three days twenty squares of wheat at a total expense of 60 Bolivians, whilst binders use 45 Bolivians of wire; but we learn that the Wood's machine, now imported by Messrs Drysdale, binds with twine instead of wire, which is a great saving.

The total area of these happy, prosperous Santa Fe colonies is 110 square leagues, but they are stretching out very fast, and fully 800 families have settled up there since the visit of ex-President Avellaneda in November 1879. The present average growth of these colonies is five hundred families per year, but if the Government would give free passages to the friends of the colonists when asked for, the growth of these colonies would be at least ten times what it is to-day.

All the colonists are prospering so well that they all have cows and sheep, some of them as many as 500 cows. The colonists are doing like Mr Kemmis—ploughing up the coarse lands, when the soft grasses spring up. The experiment has proved so very successful that we may expect to see it carried out on the Melincue and Rojas and Lincoln camps as soon as the farmers have on their lands men who, like the Swiss colonists, well know how to plough.

THE FALL OF LIMA.

OFFICIAL REPORT.

(*Telegram to the 'Nacion.'*)

Miraflores, January 16th.

To the President of the Republic
Your Excellency,

The Chilian army is at the gates of Lima and resolved to bombard it until it surrenders unconditionally. To reach Lima it had to fight two great battles, and it won two immortal victories. The great battle of Chorillos was fought on the 13th, and 25,000 Peruvians, occupying positions the most formidable you can possibly imagine, were completely routed by half our army.

At 5 o'clock, a.m., Lynch's Division, which formed our left, began a brilliant attack on the enemy's right wing. Three quarters of an hour later Gana's brigade, of Somoyor's Division, got under fire and attacked the enemy's centre and left wing. The fight was maintained with extraordinary daring. Our infantry, under cover of a most accurate fire by the artillery, rushed forward with headlong valour.

Then three regiments of the reserve: the Sappers, the 3d Line and Valparaiso, under Col. Martinez advanced in support of Lynch's Division, which was fighting heroically in an extended line.

At 6 45 a.m., the enemy's grand line was in the power of our gallant fellows, and over 4,000 dead Peruvians showed that the resistance overcome was worthy of our soldiers. The three arms vied with each other in heroism and have reaped equal glory. The cavalry—grenadiers and carbineers—made several brilliant charges. From 7 a.m. till 2 p.m. the fighting was confined to Chorillos.

This battle was very trying on our men, but the result was never for a moment doubtful. Our loss is heavy, as we had to take the town street by street and house by house, and to reach the city we had to cross exploding mines at every step. It is no wonder that Chorillos has disappeared.

I should like to tell Your Excellency of those who most distinguished themselves, but I must not do it in a report intended for publication. Neither will I say anything of our losses, which will be reported by the regimental commanders. The victory of the 13th gave us 1,500 prisoners, 60 cannon, and many flags. The number of dead exceeds 4,000. I will not venture to say 7,500, although this is the general belief. The battle field is literally covered with corpses.

The 14th was spent in bringing in the wounded, and the General prepared to attack Miraflores on the morning of the 15th; and capture the 10,000 men in it; but, during the night, the Diplomatic Corps in Lima asked for an interview, which, was fixed for 7 a.m. and at that hour the English, and French Ministers, and Sr Pinto, the Decano, arrived. They wished us to save Lima the horrors of an attack, and our answer was that the only way to do so was to surrender Callao at once and unconditionally. They asked for a suspension of hostilities till midnight, and on the faith of this General Baquedano went to visit the encampment and give orders, in case of another battle.

At 2,15 p.m. the General was passing at a short distance from the enemy's lines when they opened fire on him. This incredible treachery brought on the battle of Miraflores. Pierola had placed his lines behind loop-holed walls, so that they could fire without being exposed. Our men jumped over these walls, and after desperate efforts and cruel loss, routed the enemy and at 7½ p.m. lay down to sleep in the positions they had won.

With Lima under our guns, all is over. Lima and Callao will certainly be ours to-morrow. The Chilian army will attract the attention of the whole world. What immense glory! I congratulate Y E. and our country.

Altamirano.

General Baquedano's despatch is almost a repetition of the foregoing. He adds, however, that the first division of his army would march into Lima on the 17th, and that Lynch and Lagos are the commanders who deserve the highest rewards; he also gives the following list of officers killed and wounded:—

Killed—Colonel Jose M Marchant of Valparaiso. Lt. Colonel Zañartu, of Chacabuco. Lt. Colonel Silva Renard, of Talca. Mayor Rafael Zorraindo, of Atacama. Major Jimenez, of Chillan. Wounded—J Martinez, dangerously; Lt. Colonel F. Barcelo, slightly; Colonel Domingo Herrera, slightly; Lt. Colonel Roberto Souper, dangerously; Lt. Colonel Fuensalida, dangerously; Lt. Colonel Marcial Pinto, dangerously: Lt. Colonel Jose M. Soto Aguilar, dangerously, Lt. Colonel Zillerufu, dangerously; Major Luis Docraina, dangerously; Vallejos of Buin, dangerously; Miguel Arran, dangerously; Villagran of Colchagua, slightly; Ramon Darelignac, dangerously; Rafael Guerrero, dangerously; Lt, Colonel Baldomero Duble Almeida, dangerously; Lt. Colonel Joaquin Cortes, slightly.

THE WEST COAST WAR.

From the columns of our colleague the *Nacion* we take the following able and enterprising summary of this war, which we suppose may be considered to have closed on the fall of Lima. There are many events in this summary that commend themselves to the attention of those who judge events by the currents on which they are borne. History has rarely afforded an instance of a nation so unprepared and so unchallenged plunging into a war which by the slightest foresight or prudence Peru might have avoided. The schedule we give hereunder might well form an Epic, had we but a Homer to write it; but the terrible facts, with their sad sequences, clustered in this 23 months' history of the campaign must not escape the attention of contemporaries, who, if they have brains, will profit by so truly terrible a lesson.

EDITOR'S TABLE.

There was an 'all is lost' reaction yesterday after the highly-strained excitement of Thursday about the 'finis Polonice' business on the West Coast. Modern warfare offers no paralled, in the Old or New World, of such a thoroughly clean sweep by the conquerors, unless, perhaps, the Paraguayan war. What the *Republica* says is strictly true: Guano, Nitrate and Revolution were fatal to Peru, whose sons, if they had had to work hard for their living, like the Chilians, would not have been so enervated and would have made a better fight for hearths and homes. The question now is, what will Chile do? The surrender of the Peruvian squadron, stores, arsenals, &c, in Callao increases her naval strength to a most formidable pitch, and she is now mistress ot the Pacific from the Straits to the Isthmus of Panama. Annexation on a large scale is anticipated by some, but others think Chile will content herself with the tit-bits of Peruvian territory, Callao of course included, to serve as a Gibraltar for the 'English of South America.' Now that naked 'accomplished facts' stare us in the face, the problem of the future does look rather a serious one. We give in another column the excellent summary of this disastrous war published yesterday by the *Nacion*. Since the time of Napoleon the Great no nation has shown such a list of continuous triumphs: and, although the conquered were at no time very formidable adversaries, still the pluck, energy and perseverance of the conquerors is beyond denial.

The latest operatic news is that Ferrari has engaged Borghi-Mamo and Stagno for the coming season at the Colon Theatre. A colleague says he does not know who Borghi-Mamo is: this is arguing himself unknown. She is, or was, when we heard her last, one of the stars of the Italian Lyric stage—a star of the first magnitude. In Europe Mr Stagno is not in this category, and Ferrari should bring us something new this year in the tenor line.

We have to return our best thanks to a leading mercantile friend who, during a call on us yesterday morning, casually discovered that our cellar was as dry as it could be. Half an hour later it was full to the door. Such touching evidence of public sympathy is most grateful to chronicle.

It is announced that the Italian Art Exhibition will be opened in the month of March next. This is quick work. The building was commenced only a couple of months ago.

Mexico and Chile have undertaken to beat Brazil hollow in the longevity line. A venerable lady named Ignacia Naveron lately died in Mexico aged 145, and had full possession of her faculties till the last moment. She was a personal friend of the Viceroy Count Fuesdara, who governed that country in 1746. In Talca, Chile, a gentleman named Acevedo, 'did' 132 years before he shuffled off; he was five times married, and up to the last could ride a horse and play a game at ball as well as a boy of 16. In the same town there in another man living who has passed his 135th year.

The wheat growers in Santa Fe seem inclined to repeat the mistake of the wool dealers in Buenos Ayres by holding their product too long. Although 11 to 12½ Bolivians per fanega is being paid in Rosario for new wheat, the farmers only send it in in small quantities, hoping for higher prices. Nevertheless, some large transactions have been effected here and there. The heat has been very great in the colonies. More threshing machines are badly wanted, and large areas of wheat remain uncut, waiting for their turn of the machines available.

Professor Kyle has finished his analysis of the viscera of the unfortunate Mrs Calviño, and declares that arsenical poisoning was the cause of death. This shows that Dr Susini was right in assuming that the wood of a sheep-wash cask, which was used as firewood to cook the family's dinner, was the cause of this terrible tragedy. It will serve as a lesson to families to be careful in their use of firewood.

Another nice little, blue eyed, golden-haired girl of 2½ years old was stolen in Calle San Jose on Thursday. This nefarious business is assuming proportions that may well alarm the families of the city.

The farewell dinner of the Princes' Ball Committee came off on Thursday evening in the banquet saloon of the Confiteria del Gas; Mr Carroll, President of the Committee, in the chair, vis-a-vis Mr Bouwer, Mr Williamson at the top of the table, and Mr Woodgate, croupier. All the Committee attended, save Messrs W White, L Rossignol, and M Duggan, who were unavoidably absent. The banquet was one of the grandest ever given in this city by M Roverano. In accordance with the welcome custom now established there was a set against speaking, and the only toast to be given was to Her Majesty, which was gracefully and eloquently proposed by Mr Carroll. Mr Hart, interpreting the wishes of the Company, in the felicitously terse style of a Beaconsfield proposed Mr Carroll's health, which led to a continuation of the toasts. Mr Bouwer, the President of the dinner Committee, was toasted and exquisiteiy responded. Mr Forrester drank the land we live in and health to Mr Robert Ramsay, who responded for the Republic and drank to the old country; this brought Mr Bankier to his legs who drank to our Gallic forefathers and coupled with them the name of Mr. Galli who lent such great services to the Ball Committee. The chair rose and we all adjourned to the card room where whist parties were arranged, the suburban gentlemen leaving at once for their quintas. Thus closed the services and career of the Princes' Ball Committee, whose great success throughout is the theme of universal praise in River Plate English circle.

General Sarmiento resigned his post of Director General of Schools yesterday.

On Thursday evening a grand state banquet was given by Dr Don Diego Alvear to the President, Ministers &c. The baronial dining hall at Sr Alvear's splendid city residence was dressed for the occasion, whilst the 'menu' was most exhaustive and the dinner one of the grandest ever given in this city. True to the strict rule in the best London and Parisian society, no toasts or speeches were allowed, and the dinner party broke up at 11 o'clock. There were present—H.E. President Roca, Ex-President Dr Avellaneda, Ex-President Sr. Sarmiento, Vice President Madero, Dr D'Amico, Prov. Minister; Dr Arias, Dr Alberdi, Dr Roach, Governor elect; Dr Romero, Governor of Buenos Ayres; Sr Cortinez, Minister of Hacienda; Dr Del Viso, Minister of Interior; Dr Pizarro, Minister of Education; Dr Victorica, Minister of War; Sr Alkaine, Sr Don Carlos Casares, President of Provincial Bank; Dr Pacheco, President of National Bank; Dr L Saenz Peña, Governor Iriondo of Santa Fe, Dr Quesada, and some few others.

A look into Burgos's superb 'magasin,' at the corner of Calles Cangallo and Florida, is as good as a visit to an Exhibition. There seems to be literally nothing, from a needle to an anchor, that is not to be found there, and at very moderate prices too, considering the A 1 quality of everything. The bronzes and other 'articles de vertu' are really marvels of French art and taste.

We felt as if we had caught cold and were otherwise 'descompuesto,' owing to the absence from our table for the last week or so of our spicy colleague, *La Tribuna Nacional*, which we formerly received so regularly. We cannot do without so valuable a colleague, and were truly glad to find it again amongst our exchanges yesterday morniug,

There will be Mass and sermon in English to-morrow at San Francisco Church as usual, at 1 o'clock,

The Archbishop will preach tomorrow at San Fernando, where grand religious ceremonies and festivities are announced.

The Rev. Mr Schede, the esteemed German Pastor, has returned from a missionary visit to Azul, where he has many countrymen and co-religionists.

It is believed that the Government will accept Rear-Admiral Cordero's resignation of the post of Commander General of the Navy.

A play will shortly be given at one of the theatres for the benefit of those who were formerly officers in the extinguished Provincial Guard of this province.

The news from Europe about wool is miserable. See telegram. Gold, which was expected to go up like a balloon on the fall of Lima, has gone down. Things invariably go by contraries in this favoured land.

A lot of bull-fighters from Montevideo arrived here yesterday, to have a look at the city that will have nothing to do with their brutal exhibitions. A colleague says that one of them stabbed a woman nearly to death some days ago in Montevideo.

The Villarino has begun her career as a packet well. She left Patagones on Monday last at noon, and arrived here early on Thursday morning, one of the quickest runs on record. A number of officers came up in her.

We were right yesterday in supposing that coffee planting is going on in the Interior. The Governor of Jujuy has officially intormed the National Government that several plantations have been started in the valleys of that province, and, to encourage them, the Governor has exempted them from all taxation. The new plantations will begin to yield about the time the railway gets to Jujuy, and then for an addition of the grandest of staples to our export list.

The enrolment of the National Guards goes on vigorously, and it is said they will soon be at drill all over the Republic. Are we never to have done with 'the pride, pomp and circumstance of glorious war' in South America?

The masquerade ball season is warming up. We believe nearly all the theatres are thrown open tonight for Terpyschorean purposes. It would be a good job if these orgies were confined to Carnival time: even their most arudent votaries get thoroughly done up in mind, body and 'bolsillo,' and heartily sick of them, when they are so frequent as at present.

There was a reaction in the gold market to-day, but the bears appear to have pushed the price too much in the morning, as gold opened at 29.30, but at once rose, and sold up to 29.45, closing at 29.40. Many parties were much astonished that the news of the fall of Lima did not put gold to 30 m/c, but the West Coast news seems to have had no perceptible effect on the market, as since the news arrived prices have continued dropping. The sales today were over a million, which shows the speculation going on; gold for April was sold at 29.40, Cedulas firm at 87, and Nat. Bank shares slightly better, closing at 72½ for end of month.

National Bonds (1863) one sale—5800 at 82. According to the latest London telegram, Hard Dollars in London are 73½, which is much in advance of the price here.

The Havas telegram announcing a dreadful storm in the Thames was the talk of 'Change. People consider that two millions sterling is a very high estimate of the damage. Many scientific parties here say that these great storms now cling to hemispheres, and that for the present all the great storms are restricted to the Northern—a theory most felicitous for us all here.

As there is great interest taken in the Boca works, we give the following list of tenders opened yesterday at the Minister's office:—

The report of the Fomento of Barracas, although a very little paper, reveals important facts; spite of war, revolution, hard times and bad weather we note the 6 months' traffic on the Barracas road shows a great increase and the highest half year in the table which we give—

July to Dec.	Receipts.	Profit.
1874	293,666	140,777
75	342,938	191,933
76	364,787	226,577
77	413,257	248,024
78	393,094	237,660
79	421,620	268,647
80	437,837	299,901

The traffic on a road such as the Barracas road is one of the surest indexes of trade, it tells as much as the Custom House returns, and perhaps more; on all our railways, our tramways, our steamboats and our paved roads traffic is steadily increasing, and this speaks well for the growing trade of the country. The profit and loss account of this company shows a balance of $f.12,386 20 cts. from which the Directors pay a dividend of $f.7 per share, or 3½ per cent for the half year, leaving a balance for the purchase of paving stones of $f.521.20, which is passed to this year's account. Mr Francis Humphry has been named the accountant or contador of the Company; verily the right man in the right place; there is no one in the Plate superior to him in figures, and the Directors look forward to still higher dividends, the fruit of their increased vigilance and economy. Messrs Santa Maria, Bunge and Meyer, Directors, go out by rotation, but are elegible for re-election, and we suppose have been re-elected, as it would be hard to find in the market three gentlemen who know more about the Barracas road and its traffic. The following is the balance-sheet—

FRANCIS HUMPHRY.

The fact that no Englishman is on the new Provincial Bank Board is so much commented on in the Bolsa that we heard to-day from a member of the Legislature that the comments have reached the ears of the Chambers, and our informant states that some new names was spoken of. When one takes into account the immense English interests in this market and its very close connection with the London money market we must say that Argentines pay a very poor compliment to their own judgment in omitting our countrymen from their Bank Board, since such an omission must necessarily give rise to comments and conversation, and they say in Europe 'conversation is the enemy of credit'. Mr Carroll, who is at the head of one of the oldest English houses in this market, and occupies a deservedly prominent position in our commerce, would be in every sense a most eligible party for the vacant representation. As the Executive has to send in a new list to the Senate, we trust that the matter will be looked at in a proper commercial light by H.E. the Governor, his Minister, Dr Demaria, and the Senate who must see the wide room there is for these few remarks, and the very grave error in any departure from precedent so well established in the formation of the Bank Board.

1273 bags linseed
175 tons quebracho wood
From Montevideo—
1000 bales wool
4000 salted hides
60 pipes tallow
40000 horns

The Corinthian, which is now loading for Havre, follows the end of the month.

The following wool circular from Australia has been kindly favored us; it always shows what is doing in wool out there:—

Melbourne, Oct. 28th, 1880

Wool—

The opening sale of the new clip took place on the 6th inst.; contrary to expectations, the quantity offered until the last few days has been considerably smaller than was anticipated, but a large sale was held yesterday, the 27th instant, when over 11,000 bales were catalogued. Altogether about 28,000 bales have been offered, of which about 20,000 bales have been sold, against 25,000 bales offered and 18,000 bales sold at the corresponding time last year. Considering that an exceptionally early season was looked forward to, the delay of the sales was rather disappointing, but on account of the late repeated heavy rains, shearing operations had to be stopped, and although part of clips have been in the stores for a long time, a delay in the completion of them could not be avoided, and growers do not like to offer their clips until they have quite finished shearing.

The sale room presented from the commencement a very animated appearance, and amongst the large attendance, besides the usual local buyers, were representatives from English and Continental as well as some American houses. A strong demand was evinced at once, and higher prices were established than the telegraphic news of the close of the late August-September sales in London might warrant, but speculators were apparently eager to operate, and prices at the first sales showed quite equal to those ruling here during the highest time last season; since then the sales have proceeded at fully opening rates, which may partly be attributed to the extraordinary success that some of last year's purchases have met with, and inducing some buyers to buy freely at these rates.

The descriptions offered so far consisted chiefly of clips in the grease from the Riverina districts, and these confirm fully our previous remarks as to the growth and soundness of the staple, the condition is likewise better than was anticipated from a few early samples, and as a whole the new clip compares favorably with the last season. Amongst the better known brands sold are the—

Mount Hope, 11½d
Liewah over H c k, 12½d
S J over Warbreccan, 12d
Perricoota, 12⅝d
O S B over Momalong, 13½d, &c.

Several large clips of scoureds from the Darling districts were sold also at very full rates, the
D Mc P over Lake Victoria, 23½d, 22½d
Moorara, 22½d
Netallie, 21½d
J D Netley, 23d

Washed wools have been so far only scarce, but the Gorrinn was sold at 26d, and Cochran over Widgiewa at 20d.

In crossbreds, either washed or greasy, only a limited quantity has come forward, and most of these in small lots; a strong competition, however, is shown for these descriptions, and they participate at present in the high prices ruling in this market.

THE ARGENTINE FRESH MEAT CO., LIMITED.

INCORPORATED UNDER THE LIMITED LIABILITY COMPANIES ACTS, 1862, 1867, AND 1877.

Capital £200,000, in 40,000 shares of £5 each, of which £150,000, in 30,000 shares of £5 each, are offered for subscription.

Payments—£1 per share on application, £1 per share on allotment.

Calls—£1 per share every three months from date of allotment, as may be required.

Reserved—10,000 shares to pay for land, cattle, buildings, &c., wholly or partially, in fully paid-up shares.

Special Features.

1. Demand and supply secured. Monthly service.
2. Loading and discharging without transhipment.
3. Cattle, farms, stock, stall feeding, and building lands, vested in the Company.
4. Vendors paid almost exclusively in shares.
5. Profits calculated from 22½ to 45 per cent.
6. No promotion money.
7. Preliminary expenses strictly limited.

Some influential and well-known cattle breeders, holding grazing lands in the Argentine Confederation, generally contiguous to each other, and forming so far in the aggregate about 37,000 acres, at an average cost of 4s. per acre, have agreed to vest the same in this Company as owners in perpetuity, taking payment wholly in shares without preference or guarantee of any kind. Three hundred acres of land in the township of Rosario, and of easy access to the port, have also been secured on similar conditions for the purposes of stall feeding, buildings &c.

The insatiable demand for fresh meat in London alone is proved by the avidity with which the enormously increasing importations of dead meat and live cattle from the United States, Canada, and even Australia are absorbed, and so far without effecting the slightest amelioration in prices to the consumer.

The perfect and unfailing preservation of meat by means of refrigeration being now an accepted fact, this Company, besides utilizing its own stocks, proposes to avail of the practically inexhaustible supplies of cattle, sheep, &c., existing in the districts bordering on the River Parana, and to establish a trade between that country and this, commencing with the importation of say 200 tons of fresh meat per month, with the intention of largely increasing that quantity.

The meat will vie in quality and weight with any imported from America or Australia. The beasts will be fattened on special grazing land owned by the Company, and situated close to the shipping port of Rosario.

Warehouses fitted with refrigerating apparatus will be erected on both the shipping and landing quays. Cargoes will be stored and prepared for shipment in anticipation of steamers' arrival. The home warehouses will not only tend to preserve the fresh appearance of the meat, but make sales less dependent on market fluctuations.

The port of Rosario on the River Parana is accessible at all times to sea-going steamers, which can load direct from the warehouses alongside quay. The voyage will occupy about 28 days, about half the time and distance from Australia.

Arrangements are in progress for fitting with refrigerating compartments steamers trading to the River Parana, and the special facilities this Company possess, permitting of rapid dispatch combined with a regular trade, ensure unusual economy in freight and charges.

The profits have been carefully worked out and are expected to range from 22½ per cent to 45 per cent per annum on the total capital. They are based on the following ascertained costs and returns:—

	d.
Nett cost of beef or mutton f.o.b Rosario, with allowance made for hides, horns, hoofs, offal, &c., per lb	1·50
Preparing for shipment and storage in London	·45
Freight, including expenses of refrigerating apparatus &c. on board, and insurance	·90
Landing charges, commission, loss in weight	·40
Management	·25
Total cost delivered on the London or Liverpool markets	3·50

The usual price realized for American or Australian imported fresh meat may be taken as, per lb 5·50

These figures would consequently show a nett profit of 2d. per lb on the meat imported by this Company, yielding—

Per annum £44,800 on shipments of 200 tons per month, equal to 22·4 per cent

Per annum £89,600 on shipments of 400 tons per month, equal to 44·8 per cent

The custom of the trade being to pay cash on delivery, the Company will be early in possession of returns, and it is accordingly proposed to make frequent distributions of dividends.

The objects of the Company are specially set out in the Memorandum of Association appended.

No promotion money will be paid.

The founders receive from the Company 200 shares of £5 each, which are not entitled to any dividend until dividends of 15 per cent have been paid to the shareholders. The founders' shares then become entitled to one-fourth of the surplus profits over 15 per cent.

Arrangements have been made for the exemption of duties on all materials required for the Company's Plant in the Confederation, and the Provincial Government have agreed to subscribe for 2,000 shares. Beyond this, assurances have been received that great support will be given to this undertaking by the Argentine public.

The land agreements entered into are, (1) dated ..... between Messrs. Brassey, Wythes and Wheelwright, (2) Paull Krell Esq., (3) J C Simpson Esq., (4)..... (5) Paul Krell Esq., respectively, and Hugh E McLeod, Esq., as trustees for the Company.

Agreement No. 5, dated..... between..... and said Hugh E McLeod, Esq., similarly as trustee, provides that for..... said..... undertakes to pay all preliminary expenses up to and including the allotment of shares.

In the event of no allotment of shares being made, the deposits will be immediately returned in full.

The Articles of Association can be seen at the offices of the solicitors. Prospectuses and forms of application for shares may be had of bankers and at the Company's offices.

Dr. J. COLLIS BROWNE'S

(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

o

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean, no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1855) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
